

Euclid 20 Balljoint IP20 Class 2

0.3 Watt medium power LEDs

Modular, 3D flexible LED linear lighting system

80 x 0.3 Watt medium power LEDs per Mtr

Modular, 3D flexible LED linear lighting system

Product description:

For use in interior indirect lighting applications including cove lighting, wall grazing and wall washing where the building surfaces are non linear with curved profiles

Strips up to 8.3' (2.5 Mtrs) can be comprised of custom combinations of modules of any specified length - increments of 4" (100mm). E.g. a 2 Mtr strip comprised of 10 x 200mm modules. This allows the system to go seamlessly from a straight section directly into a curved section

Osram, Samsung or Luminus medium power 0.3 Watt LEDs

Up to 8 Watts per ft (25 Watts per Mtr)

Integral DC to DC low voltage linear drivers. Remote 24 V DC power supply

Continuous LED pitch across strips

Wide range of LED colour temperature and CRI options available

40° linear-lens is available

Mounting options include spring clips or custom bracket options

Various dimming options available: 1 - 10, DALI, DMX. Separate dimming channel

Side, end or back power feed and connector options allow for continuous lighting - Up to 36 ft (11 mtrs) can be lit from a single feed point. 16 Amp IP20 connectors join fixtures together on-site - the connectors fit inside the fixtures, allowing for continuous lighting

Black, white or any RAL paint colour finish

* Dynamic-white option does not use a colour mixing lens

Up to 600 lumens per ft
(Up to 2,000 Lumens per Mtr)
